

VINYL PRODUCTS

Leather and Vinyl Cleaner

A cleaner specifically developed to clean Leather, Synthetic Leather and Vinyl surfaces from general grime, grease and oils.

This cleaner can also be used on Rubber and most other hard surfaces. (We do recommend you first test on an inconspicuous part of the surface).

Spray directly onto the surface and rub surface with a dampened cloth. Leave to dry.

Vinyl Colour Spray

Vinyl Colour Spray is a colour-fast compound spray-on dye which is specifically developed to treat Synthetic Leather, Vinyl, Canvas, Rubber and Cotton, but is also suitable to colour almost any surface.

The surface to be sprayed must be thoroughly cleaned and free from grease and oil. The Leather and Vinyl Cleaner is recommended to preclean the surface.
